SUBJECT INDEX

Accidents — at nuclear installations 4: 126
Africa — destruction of forests causing deserts to advance 1/2: 7,11,14
value of logging 1/2: 26
illness in pygmies following disturbance of village life 1/2: 36
savannah replacing forests 1/2: 45
Agriculture — cash crops in developing countries 1/2: 40
intensive rice paddies in Java 1/2: 46
agricultural colleges in US threatened with loss of grants by pesticide multinationals 3: 79-82
crop losses from pests less than from pesticides 3: 98-100
destroyed by erosion in Uttar Pradesh 5: 170-71
direct drilling 6/7: 216
value of sewage 6/7: 216
started with growing of hemp 8/9: 260
terracing as the basis of successful farming in the Middle East 8/9: 312-16
traditional practices still followed by Amish 10: 332
land lost to urban sprawl 10: 360
Allergies — caused by pollution 6/7: 216
Alternative Energy — tidal barrages 5: 167-9
too expensive for less developed countries 6/7: 200-201
high costs of sugar alcohol, solar energy etc. 6/7: 201-2
Amazon Basin — rain forests under threat 1/2: 11
trans-Amazon highway construction curtailed 1/2: 16
logging industry 1/2: 25-6
depletion of Indian population 1/2: 32-34
park established for Yamomamo 1/2: 35
erosion and watershed loss 1/2: 46
loss of wetlands 1/2: 47
Tenetehara Indians persecuted for growing marijuana 8/9: 282-88
Anabaptists — ecological and Utopian idealism among the Amish 10: 331-5
Asbestos — cover-ups of cancer hazards 8/9: 259
Australia — millions of acres of forest destroyed 1/2: 57-66

Bees — slaughtered by pesticides 3: 86
Birth Defects — caused by 2,4,5-T 3: 89
Brazil — expectations from trans-Amazon highway not realised 1/2: 16
growth of agriculture and industry 1/2: 17
and marijuana laws 8/9: 282-8

Cancer — therapy from forest medicine 1/2: 40-41
caused by chlordane and heptachlor 8/9: 258-9
caused by asbestos 8/9: 258-9
and workers at Union Carbide Corporation 10: 358-60
Cannabis — Special Issue 8/9 — and the law 8/9: 258-9
cultivation in early civilisations 8/9: 260
a strategy for future use 8/9: 260-64
cultivation in France 8/9: 264
and health 8/9: 265, 269-77
socio-economic aspects 8/9: 268
Elizabethan farmers forced to grow 8/9: 280
integral part of village life: 280
for linen, rope, canvas etc. 8/9: 280
cultural importance to Brazilian Indians 8/9: 282-88
Tenetehara Indians tortured and persecuted for growing 8/9: 282-9
ecological value 8/9: 92
plant described 8/9: 291
plea for legislation 8/9: 293
and organised crime 8/9: 295
as a factor in National economics 8/9: 296-7
Carson, Rachel — attacked by the pesticide industry 3: 75
C.E.G.B. (Central Electricity Generating Board) — see Nuclear Power
unwilling to reveal costs 4: 114
becoming more wary of nuclear costs 4: 114
Centralisation and Decentralisation — a combination needed 5: 150
Climate — in pre-ice age Britain 1/2: 36
changes resulting from deforestation 1/2: 43-45
variations in global heat balance 1/2: 48
effects on of carbon dioxide 1/2: 50
Coliform Bacteria — alarmingly high level in Severn Estuary 5: 168
Conservation — of the biosphere 6/7: 191
Contrada — in Siena as an example of social control 6/7: 205-7
Cover-Ups — of pesticide scandals by multinationals 3: 74, 78-82, 106, 8/9: 258-9
in the lead controversy 6/7: 246
in the 2,4,5-T debate 6/7: 248
in Aldermaston's Chemicals Division 10: 330
at the Union Carbide Corporation (US) 10: 358-60

Dartington — sets up new Trust to help rural industry 5: 172
DDT see also pesticides — still being exported to Third World by US 3: 77
found in imported foodstuffs 3: 77
persistence in soil 3: 85
Deserts — spreading as the result of deforestation 1/2: 43
Dioxin — see pesticides
Drugs — see Cannabis — and society 6/7: 204-6
Dubos, Rene — scientist who transcends scientific materialism 6/7: 227

Ecologist — Tenth Birthday Issue 6/7
and people 6/7: 204
the next twenty years 6/7: 214
Ecology — destruction of ecological balance in Uttar Pradesh 5: 170
the 'proper study of man' 5: 215
idealism of the Amish settlements in US 10: 331-5
Economics — and culture 5: 157-61
Mishan, Galbraith, Schumacher, Henderson and

Hirsch 5: 157-61
basic assumptions 5: 158
failure to change in ten years 6/7: 186
driving force in industrial societies 6/7: 224
Ecopolitics — in Sweden 3: 110
a Green party for Canada 4: 142
success and failure in W. Germany 6/7: 251-2
Education — must not be technology-oriented 5: 155
Energy see Nuclear Power — Alternative Energy — no real crisis 3: 114
from tidal barrages 5: 167
disparity of supplies to rich and poor nations 6/7: 200-201
untapped resources 6/7: 201
problems have not altered in a decade 6/7: 208
no problem to the Amish 10: 331
Engineers — role in an ecological society 10: 352-57
Environmental Protection Agency — subjected to mafia-like pressure by the pesticide industry 3: 80
Ethnic Divisions — must be respected 4: 134-40
in Namibia 4: 135

in the Sudan 4: 137
in Ethiopia 4: 137
in Angola 4: 138
in Europe 4: 139-40

FAO — and the myth of the 'protein gap' 6/7: 196-8
Fire-ants — failure of eradication programme in US 3: 81-96
Food Resources — the disappearing salmon 10: 336-41
Forestry — Special Issue 1/2, see also Tropical Rain Forests, WEAP
experiments in sustainable mixed plantations in Southern Britain 5: 165-6
Freedom of Information — law needs changing 5:174
no privacy in Sweden 5:174
FUNAI (National Foundation for the Indian in Brazil) — liberalism on cultivation of marijuana attacked by Government 8/9:28?
Futures Research — valu of experiment 5:151-56
limits of models 5:153
exercises for thinking the future 5:156
SARU — proceedings 5:154-5
preparing for future breakdown 6/7:188
IUCN's Plan to Save the World 6/7:190-94
ecophilosophy makes too great a demand on people 6/7:203-6
of energy industry 6/7:208-10
future visions of past ages 6/7:218-22

Green Revolution — after ten years 6/7:195

Health — see also Cancer — hazards of pesticides 3:89-93, 102; 6/7:235-9
and stability 6/7: 237
optimum environment for 6/7:238
diseases of industrial society 6/7:239
in tribal societies 6/7:241-2
and lead poisoning 6/7:246-8
uses of cannabis 8/9:269-77

vulnerability of children 6/7: 247
effects on unborn 6/7: 247
Limits to Growth — see Futures Research
Logging — see Timber

Malaysia — rainforests under threat 1/2: 8-11
world leader in copper production 1/2: 18
Malthus — Malthusian theory reviewed 6/7: 169
Marijuana — see Cannabis
Marshall Islands — devastation following nuclear testing on Bikini Atoll 10: 346-51
Medical Science — failure to reduce incidence of disease 6/7: 235-244
too cautious on lead poisoning 6/7: 246-8
Melanesia — importance of rain forests 1/2: 56
wood chip schemes in Papua New Guinea 1/2: 58
loss of wildlife 1/2: 61
local opposition to logging industry 1/2: 64
Mining — in tropical forest regions 1/2: 18
Motorways — secrecy about future plans in the Department of the Environment 5: 174

Nationalist Movements — in Europe and the U.K. 4: 138
Nuclear Power — Special Issue 4 — in Eastern Europe 1/2: 68 (*ecopolitics*)
Sweden continues to debate the issue 3: 110
the industry and the public 4: 114
CEGB becoming more wary 4: 114
misleading propaganda 4: 115
programme in France 4: 116
availability of uranium 4: 118
reprocessing, the industry's Achilles heel 4: 120
Fast Breeder Reactors 4: 119
Magnox fuel 4: 121
Sites of Power stations in UK and France 4: 127
Public hostility 4: 129-30
Future dangers at Creys Malville 4: 130
Hazards of transporting waste 4: 131
In Spain 4: 141
and NUPE 6/7: 252
UKAEA takes issue with Peter Bunyard 8/9: 322
Bunyard's response 8/9: 323-4
Amory Lovins replies 8/9: 325-27
Yves Lenoir replies 8/9: 328
Tests on Bikini Atoll 10: 346-51

Oil — dependence will cause collapse of industrial economies 8/9: 303-11
OPEC's twofold economy 6/7: 200
OAPEC — giving huge aid to developing countries 6/7: 201
possiblities of conservation 8/9: 309

Papua New Guinea — see Melanesia
Pesticides — Special Issue No 3 — manufacturers tactics 3: 74
phenoxy herbicide hazards covered up 3: 74
industry attacks Rachel Carson 3: 75
silencing tactics 3: 78-82
and the EPA 3:80
effects and persistence in soil 3: 83
damage to bees 3: 86
and birth defects 3: 89
in Vietnam 3: 90
in Seveso 3: 91
increased use of 3: 94
and WHO statistics 3: 96
economic consequences of banning 3: 98
control laws 3: 102
misleading information about 3: 106
in Vietnam 3: 106
2,4,5-T cover-up 5/6: 249-51

chlordane and heptachlor tests cause liver cancer in rats 8/9: 258
dibromochloropropane as a cause of sterility 8/8: 258

Planning — for the Future 5: 151
disasters in urban development 6/7: 203
Plutonium — see Nuclear Power
Pollution — hazards in proposed Severn Barrage 5: 165
can cause allergies 6/7: 216
laws ignored by chemical companies 8/9: 258
in the Marshall Islands 10: 346-8
cannot be overcome by individual effort 10: 355
Primitive People — sufferings when resettled 1/2: 36
Psychologists — must aim to free man from scientific materialism 6/7: 226-7
Public Inquiries — aftermath of the Bushel decision 5: 174
Pygmies — sufferings when driven from traditional homelands 1/2: 36

Rainfall — and the tropical forest 1/2: 45
Rural Decline — new Dartington Trust aims to reverse trend 5: 171-3

SARUM (Systems Analysis Research Unit Model) — see Futures Research
Science — and Belief 6/7: 230-34
and human behaviour 6/7: 230-34
Scientific Materialism — limits and ill effects in Western culture 6/7: 224-9
need for holistic world view 6/7: 230-4
